

Web2English

Technology is very important for effective teaching and learning. It also helps our students to learn the language with fun. We aim to integrate the web tools into English lessons, create games- flashcards- puzzles etc. These activities will increase the success and awareness of the students in language learning. Web2English Technology is very important for effective teaching and [learning. It](#) also helps our students to learn the language with fun. We aim to integrate the web tools into English lessons, create games- flashcards- puzzles etc. These activities will increase the success and awareness of the students in language learning.
